

# TOP TIPS ON PLAYING SAFE.

**Do you chat to others when gaming online?**  
*A few helpful tips to keep in mind...*

- **Don't overshare.**  
Make sure you don't give away info like your full name or where you live. Check that your username doesn't reveal anything too personal!
- **Look out for scams.**  
Other gamers might try to trick you into buying things, or send you a harmful download.
- **Keep your chats in the game.**  
If you've got friends you met through online gaming, be really careful of any requests to connect outside the game - on social media, for example.
- **Know what you're spending.**  
Sometimes it's hard to tell whether an in-game purchase uses real-world money. Check with a parent or carer before you buy.
- **Speak out.**  
If someone makes you feel uncomfortable or upset, always tell a trusted adult.
